Using WhatsApp for WildTrackPro reporting

Setting up you WhatsApp groups

You will need to set up two groups in WhatsApp:

1. General chat page for your members.

2. Outing/Site reporting page.

WILDTRACKPRO

COMPREHENSIVE WILDLIFE
MANAGEMENT SOFTWARE

Numbers you must add to your phonebook and WhatsApp Reporting Groups.

WildTrackPro Listener +44 7342 238 885

WildTrackPro Responder +44 7377 611 365

The chatbot will respond directly to you on the Responder phone number.

Adding members (remember to use the +44 format)

Sending On/Off Ground messages

Select the correct group for the ground you are on,

1. On **Android** click on the paperclip in the text bar;
   On **Apple** click on the +

2. Then select "Location"

WILDTRACKPRO

COMPREHENSIVE WILDLIFE
MANAGEMENT SOFTWARE

Sending On/Off Ground messages

3. Wait for the satellite accuracy to improve, normally down to around 10m or less.

4. Now click "Send your current location"

Sending On/Off Ground messages

Wildtrackpro Responder
📍 Hi Dean Smith, You're registered on ground. Your outing reference is: 08:08

DS001DeanSmith230812m. 08:08

5. Now type "On ground" and send.

6. Your unique outing reference will be sent back to you. This saves your location and message to your reports page.

7. To report that you have finished on the ground and are leaving send your location and then send the message "Off ground".

8. You need to be in your site boundary to text location and on/off ground:

if you forget send: "Robot off ground"

MANAGEMENT SOFTWARE

Sending in "moving location"

When you are leaving a location to carry on at another location.

1. Send in your current location.
2. Send the message "Relocating"

When you arrive at your new area.

3. Send in your new location.
4. Send the message "Relocated"

WILDTRACKPRO

COMPREHENSIVE WILDLIFE
MANAGEMENT SOFTWARE

Sending in Sightings

1. Send your location.
2. Then text:

   Species(important) and sex (if known)
   Distance to animal in meters and the compass heading

   Example:

   "2 roe does 1 roe buck 200m w"

   or

   "Sika stag 50m sse"

WILDTRACKPRO

COMPREHENSIVE WILDLIFE
MANAGEMENT SOFTWARE

Sending in Sightings

1. Send in sightings as separate messages:

   Example:

   'Location' ping.

   3 roe does 200m nw.

   Location ping.

   1 roe doe 100m e.

Sending in an image

If you would like to send an image to appear on the map/report page:

1. Send in your location.
2. Send in an image, attach relevant text to image.

By clicking on the relevant pin the image will popup.

MANAGEMENT SOFTWARE

Events

If you would like to save some relevant information about your outing.

Add the word "event" before the message.

Example:

"Event dodgy white transit van slowly driving around estate reg 123 tbs"

or

"Dog walkers everywhere after 08:00"

WILDTRACKPRO
COMPREHENSIVE WILDLIFE
MANAGEMENT SOFTWARE

Alerts

To send in "VERY important information" start you message with "alert".

This will trigger a message to go to all members of your group.

Someone then has to then go to WildTrackPro and click on "Dealing with this" or "Resolved"

Example:

"*Alert deer dog needed*"
